

# MY PLAN

We will industrialize Anambra state and bring jobs for all, Anambra can be the best state in terms of GDP and living standards with the right leadership. That is what Augustine Emeka Ekene will bring to the state come 2021. Join us to build a better future for our generations to come and the one living now.

We have projects designed to uplift the youths of Anambra by providing the right training for them in the areas of software development, Artificial intelligence, Data science, teaching, website design and project management and providing them access to funds to start up business. This project is also for less privileged people in the society. So if you are an Anambrarian apply. Also if you are less privileged apply We have projects designed to uplift the youths of Anambra by providing the right training for them in the We will do the state good by the following steps

Digitize Anambra.

Create Jobs for the youth.

Provide good and Quality Education.

Provide good Health care.

Create a system that enable ease of access to funds for youths to start business which can be done by digitizing the state we create a lot of Information and communication technology jobs, making it available and accessible to the teaming youth in Anambra state. Our youth will be trained to produce and manufacture tools and product. Areas of software development, Artificial intelligence, Data science, teaching, website design and project management and providing them access to funds to start up business.
